THEY SAY

Full of robots, empty of people

REALITY

Full of people making better decisions.

THEY SAY

It’s a technology project

REALITY

Process and people decide whether the technology works.

THEY SAY

It needs Industry 5.0 or 6.0

REALITY

No version number required. Just good data, used well.

THEY SAY

It makes manufacturing simpler

REALITY

It doesn’t reduce complexity. It helps you handle it.
