SHOPFLOOR MATTERS

Where is your factory really?

Four honest questions

Matt Barber · shopfloormatters.com

Swipe →

01

Is production data captured automatically, or typed in later?

02

Do production, quality, inventory and maintenance use the same data?

03

Could you trace a lot from raw material to customer in minutes?

04

Does the morning meeting start with real-time data?

Mostly no?

You're at Level 1 or 2. Very common.
Nothing to be embarrassed about.
