SHOPFLOOR MATTERS

Start with a decision

Four questions to find your first AI use case

Matt Barber · shopfloormatters.com

Swipe →

01

Which failure would you most like to see coming?

02

Which quality defect costs you most?

03

Which report do people spend hours building every week?

04

Which question do new starters ask most often?

NEXT

Then check you have the data that decision needs

If not, you've found what to build, and why.
